How many people are actively involved right now in your campaign? What are their roles?

If you have a primary, how much do you anticipate raising in the primary election? How much do you anticipate raising in the general election?

As of your last campaign filing, how much has your campaign raised and how much cash does your campaign have on hand?

List endorsements from other organizations you have received to date:

Would you welcome financial support and/or endorsement of the REALTORS® Association (RPAC)? If yes, do you have a maximum amount (other than established limits) that you will accept from any single contributor or PAC?

Describe the history and status of your campaign.

Why should REALTORS® support you?

1. As a candidate, what are your priorities?

2. What are your thoughts on your municipality's budget? (a) Are there specific program budget cuts, increases, or funding of new initiatives you support? (b) What services could be delivered more efficiently and what would be your plan to make that a reality?

3. Do you support moritoriums on development? Why or why not?

4. The shortage of housing inventory and affordable housing are big topics among REALTORS® and affiliate business partners across our area. The number of new homes under construction today continues to fall well below pre-recession rates, and permit fees and zoning restrictions prevent builders from constructing 'affordable' housing. (a) Does local government have a role to play in this issue? (b) If so, what do you think they can reasonably do to address housing supply concerns?

5. Land use continues to be a highly debated issue, including those elements centered around planning and zoning. Are there specific policies or zoning restrictions you support or oppose dealing with planning, zoning, regional coordination and/or issues affecting urban, commercial, industrial, residential and agricultural property use?

6. Should local governments use zoning to prohibit rental of a residential property on a short-term basis? Why or why not?

7. Do you feel that local units of government should be held accountable if local ordinances not related to health or safety are adopted that result in undue fees, fines or restrictions of private property?

8. What else would you want REALTORS® to know in consideration of your candidacy?

9. How and on what issues would you utilize REALTOR® input?
